## ABOUT THIS QUESTIONNAIRE

This questionnaire is a part of the Health and Retirement Study. We greatly value your past participation in the HRS, and we hope that you will find this questionnaire interesting to complete. As always, your answers are extremely important to us. Please remember that your participation is *voluntary* and that you may skip over any questions that you would prefer not to answer.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the investigators from being forced to release any research information that identifies you. Please note that we must report credible evidence of serious harm or abuse to any person to the authorities, but this questionnaire does not ask any questions about such topics.

We have divided the questionnaire into three different topic sections. It is very important that the questions in Section A and C be answered by the person to whom the questionnaire is addressed (or by someone who knows this person well enough to answer the questions instead, if the addressee is unable to complete the questionnaire alone). For Section B, we suggest that the member(s) of the household most knowledgeable about the topics be involved in completing the questionnaire. At the end of each section, there is a place where you can tell us who actually answered the questions for that section.

Many questions can be answered by placing a check on the line in front of your response. Some questions may not apply to you, and you will be instructed to skip them. When this occurs, you will find an arrow (➔) from your answer to the next appropriate question number. When no special instruction is given for your response choice, please continue with the next question.

If you have any questions about the questionnaire, please feel free to call us at **1-800-759-7947**.

**THANK YOU!**

## Section A:

In the first part of this questionnaire section, we ask you to estimate how much time you spent doing various activities during the last week. For each activity, please tell us the number of hours you spent doing that activity. If you haven't done that activity at all in the last week, then mark the "0 hours" box to the right. If you spent less than an hour doing an activity, tell us how much of an hour you did spend (such as  $\frac{3}{4}$  or  $\frac{1}{2}$ ).

### PLEASE NOTE:

- Sometimes people do more than one activity at a time -- for example, listening to music while preparing a meal. That is, one hour of listening to music while preparing a meal would count as one hour of *listening to music* and also one hour of *preparing meals*.
- Similarly, one behavior might represent more than one activity included in the list. For example, e-mailing friends is both *using the computer* and *communicating with friends*. Record that time for both of the activities.
- Please include the time you spent traveling to and from an activity when estimating the amount of time spent on that activity.
- We realize that last week might have been unusual, and that your answers may not reflect your typical activity patterns. It is important, however, to report the actual amount of time spent on each activity, rather than the usual amount.
- If you did not do an activity in the last week, please check the "0 hours" box.

For the items on this page we have included two time periods so that you can estimate your spending in the way that is easiest for you for each category: the amount you spend on a monthly basis, or the amount you spend on a yearly basis. For example, if it is easiest for you to think about what you spend on electricity in monthly terms, then please report how much you spent each month. If you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box.

The next three pages have items that some people do not purchase on a regular basis, so please estimate what you actually spent. Please use the time period that is easiest for you to estimate your spending. For example, if it is easiest for you to think about what you spent on clothing last month then please report how much you spent last month. If it is easiest to estimate spending on clothing over the last 12 months, then please report that amount.

Again, if you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box. If you bought an item only occasionally or on an as-needed basis, then please give your best estimate of what you spent in the last 12 months.

For the items on this page we have included three time periods so that you can estimate your spending in the way that is easiest for you for each category. For example, if it is easiest for you to think about what you spent on food and beverages last week, then please enter the amount in the first column.

Again, if you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box. If you bought an item only occasionally or on an as-needed basis, then please give your best estimate of what you spent in the last 12 months.

|   | Amount spent last week |           | Amount spent last month |           | Amount spent in last 12 months |           | No money spent on this in last 12 months |
