

11/19/2007

The files on this CD store RAND income and wealth imputations for HRS 2006. The files are:

- incwlth06readme.pdf (this file)
- Incwlth06e2a.pdf: the codebook
- incwlth06SAS.zip
  - o the codebook: incwlth06e2a.pdf
  - o the data in SAS format: incwlth06e2a.sas7bdat
  - o incwlth06fmt.sas: PROC FORMAT with value labels for categorical variables
  - o incwlth06form.sas: FORMAT statement for categorical variables
- incwlth06STATA8I.zip
  - o the codebook: incwlth06e2a.pdf
  - o the data in Stata V8 intercooled format: incwlth06e2a.dta
- incwlth06SPSS.zip
  - o the codebook: incwlth06e2a.pdf
  - o the data in SPSS format: incwlth06e2a.sav

These are respondent level files. A household level file can be extracted by selecting on H8PICKHH=1. The HHID and PN match those found in the core data for 2006, but both the core and tracker version of IDs are provided. PN\_T provides the PN that matches that on Tracker 2006 and PN\_K matches that in the core (PN = PN\_K).
