It is very important that the questions in this questionnaire be answered by the person to whom the questionnaire is addressed.

If the addressee is unable to complete the questionnaire alone:

It can be filled out by someone who knows this person well enough to answer the questions.

If neither the addressee nor another person is able to complete the questionnaire:

Please return the questionnaire, with a short note of explanation, in the enclosed, prepaid envelope.
ABOUT THIS QUESTIONNAIRE

This questionnaire is a part of the Health and Retirement Study. We greatly value your past participation in the HRS, and we hope that you will find this questionnaire interesting to complete. As always, your answers are extremely important to us. Please remember that your participation is voluntary and that you may skip over any questions that you would prefer not to answer.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the investigators from being forced to release any research information that identifies you. Please note that we must report credible evidence of serious harm or abuse to any person to the authorities, but this questionnaire does not ask any questions about such topics.

FILLING OUT THIS QUESTIONNAIRE

We have divided the questionnaire into three sections. It is very important that the questions in Section A be answered by the person to whom the questionnaire is addressed (or by someone who knows this person well enough to answer the questions instead, if the addressee is unable to complete the questionnaire alone). For the questions about household spending in Sections B and C, we suggest that the member(s) of the household most knowledgeable about the topics assist in completing those questions. At the end of each section, please record in the space provided the name of the person who completed the questions in that section.

If you have any questions about the questionnaire, please feel free to call us at 1-800-759-7947.

THANK YOU!

Conducted by: The Survey Research Center at the University of Michigan.
Sponsored by: The Social Security Administration and the National Institute on Aging.
Section A

In the first part of this questionnaire section, we ask you to estimate how much time you spent doing various activities during the last week. For each activity, please tell us the number of hours you spent doing that activity. If you haven’t done that activity at all in the last week, then mark the “0 hours” box to the right. If you spent less than an hour doing an activity, tell us how much of an hour you did spend (such as ¾ or ½).

PLEASE NOTE:

• Sometimes people do more than one activity at a time -- for example, listening to music while preparing a meal. That is, one hour of listening to music while preparing a meal would count as one hour of *listening to music* and also one hour of *preparing meals*.

• Similarly, one behavior might represent more than one activity included in the list. For example, e-mailing friends is both *using the computer* and *communicating with friends*. Record that time for both of the activities.

• Please include the time you spent traveling to and from an activity when estimating the amount of time spent on that activity.

• We realize that last week might have been unusual, and that your answers may not reflect your typical activity patterns. It is important, however, to report the actual amount of time spent on each activity, rather than the usual amount.

• If you did not do an activity in the last week, please check the “0 hours” box.

Section B:

We would like to know how families spend their income. If you think that somebody else in your household might be more knowledgeable about your household’s spending, please, ask that person to help you in answering these questions.

Please indicate whether your household made any of these purchases in the past 12 months
- To the best of your ability, provide the purchase price.
- If you can’t remember the exact amount, please give us your best estimate.

If you bought more than one item in a category:
- Please indicate the total amount you spent on all items in that category.
- Please include purchases by all members of your household, that is, by you or anyone living with you.

B1. In the past twelve months, has your household leased or purchased an automobile or truck? (If it was a lease, we are asking about new long-term leases).

For the next set of items we have included two time periods so that you can estimate your spending in the way that is easiest for you for each category: the amount you spend on a monthly basis, or the amount you spent in the last 12 months. For example, if it is easiest for you to think about what you spend on electricity in monthly terms, then please report how much you spent each month. If you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box.

The next block has items that some people do not purchase on a regular basis. Please use the time period that best reflects your spending over the last 12 months to estimate what you actually spent.

For example:
- If your household’s spending on clothing in the last year was irregular or concentrated in just a few months then please report your best estimate of the total amount your household spent on clothing in the last 12 months.

- If your household’s spending on clothing was fairly evenly distributed over the year, then you can choose whether to report the average monthly amount or the total amount spent in the last 12 months, whichever you find easier.

Again, if you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box.

If you bought an item only occasionally or on an as-needed basis, then please give your best estimate of what you spent in the last 12 months.
